U.S. DISTRICT COURT**

Case #
05-CV-0329-Joe-SAJ

I'm sending this letter in regard to Ancil Maggard, he is my grandfather. I found out recently that he received a summons delivered. Ancil Maggard is 92 years old and in very poor health. His hearing and mind prevent him from understanding anything about the summons. I myself know very little about it. I only know that it has something to do with polluting the streams. My grandfather has not raised chickens for about 25 years. The property where this was done is in Adair Co. Oklahoma, which is miles east of the Illinois River. I do not see where he polluted any streams where this property is located. Furthermore, he doesn't own this property anymore, where he raised chickens. Ancil Maggard, my grandfather, has several serious health problems and is being taken care of by health care nurses.

NOTE: Due to the fact that he cannot respond back to you, please send all information to me at:
